Fall 2023 Web Team Software Developer Co-Op/Intern

Apply Now

Remote, Canada

Fall 2023 - Web Team Software Developer Co-Op/Intern

Vidyard is looking for incredible talent to join our engineering department on the web team and play a critical role as we continue to build and improve our new user journey experience! Our developer co-ops function just like full time employees, working alongside a wide variety of developers on rewarding projects. We pride ourselves on being a very value based company with core values of *Relentless Resourceful, All Aboard, Own It*, and *Direct and Transparent Communication* and this extends to our co-ops! If this sounds like you, and you are someone who is looking to work on and own full features and make a significant impact during your fall co-op term - we'd love to chat!

Please note:

- This job posting is for fall (September 5th - December 15h, 2023) Web Team Software Developer Co-Ops **ONLY**, for all other campus inquiries please send your information to campusrecruitment@vidyard.com.
- This role will be remote. Co-Ops/Interns must be legally eligible to work in Canada as well reside and work from **Canada** for the duration of their term.
- This posting will be open for applications until April 21st, 2023. Successful applicants will be notified in May.

To be an effective team member, you will have experience with some of the following technologies:

- Docker, Wordpress

- JavaScript, jQuery, PHP

- HTML, CSS

- MySQL or other relational databases

- Git & Github

- Automated testing with Jest, PHPUnit or similar

- Interacting with and building web APIs/services

- Amazon EC2 and Heroku

- Python or other scripting languages would be an asset

What does Vidyard do?

Vidyard is the video platform that helps businesses transform communications and succeed through the strategic use of online video. Going beyond video hosting and management, we help businesses connect with more viewers through interactive and personalized video experiences, track detailed insights on their viewing audience, turn insights into results with enterprise integrations, and prove the impact of their video programs.

Why do a Co-Op at Vidyard?

CHECK OUT THIS VIDEO FOR A MESSAGE FROM PAST CO-OP STUDENTS!

You have the opportunity to make an impact within your role by leading and contributing to meaningful projects during your time here. Your team and the broader company are here to support and assist you in your learning every step of the way. Not only that, but we set our Co-ops up for success both during your term with us and for the future.

With many businesses moving to work from home, Vidyard's product is needed more than ever! We are growing, moving at lightning speed and innovating so if that's something that interests you, we look forward to seeing you apply

Vidyard is an equal opportunity employer. Applicants who require reasonable accommodation to complete the application and/or interview process should notify the Talent Acquisition Team.

Co-op Hiring Manager
Vidyard
Kitchener, ON N2H 2G7

Dear Co-op Hiring Manager,

Please consider my application for a Web Team Software Developer Co-Op at Vidyard, as advertised on the UBC Scope Co-Op website. I am currently completing my first year at the UBC Bachelor of Computer Science Second Degree program.

As you can see from my enclosed resume, for 3 years I worked as a pharmacist manager at a busy independent pharmacy. This experience has given me a strong grasp on working with a team and maintaining organization to facilitate an efficient workflow. Moreover, it helped me develop the skills of working in a high-pressure environment and meeting timely deadlines.

As a budding software developer, I am well aware of the technical skills needed to work as a developer on a web team for a customer facing video media-based company. My previous exposure to development in the form of academic projects and hackathons has helped me define my new skills in both front end with HTML and CSS, and back end with Java and Python. Moreover, these projects have given me a strong starting step towards becoming a full stack developer.

I have worked hard to challenge myself to learn new skills. My experience, education, and personality have all prepared me to work well within a team, seek out help for problems, tackle challenges, and take on additional responsibilities.

If my background meets your needs, please email me at ajohal21@gmail.com to arrange an interview at your convenience.

Sincerely.

Aman Johal

Objective   Co-op at a tech-oriented company, focusing on full stack development

Education   University of British Columbia, Vancouver, BC
2022 – Present   Bachelor of Computer Science (BCS Second Degree Program)

                         University of British Columbia, Vancouver, BC
2015 – 2019   PharmD – Doctor of Pharmacy program
                         Dean's Honour List (maintaining over 80% average) in year 3 and 4

                         Queen's University, Kingston, ON
2011 – 2015   Bachelor of Science (Honours)
                         Dean's Honour List (maintaining over 80% average) in year 3 and 4

Employment   Laurel Prescriptions, Vancouver, BC
2019 – 2022   Worked as a pharmacy manager, providing high quality pharmaceutical
                         services to 200 patients daily. Managed and maintained a team of 4.

2019 – 2022   Immunize.io, Vancouver, BC
                         Working as a Healthcare Specialist for a non-profit organization. Providing
                         services in the form of; diabetes screening, healthy heart screening, and
                         vaccinations.

Technical Projects
2022   Travel Report Builder
                         Built a responsive desktop application for pharmacists to use build travel
                         vaccination reports. Developed using Java and Java Swift for the GUI. The
                         user can create, remove, and view specific reports

2022   EmoTrack
                         As part of the BCS Hackathon my team created a website designed to
                         assist the user with their current mood. The user is prompted to select their
                         mood based on three options. Based on the option a Spotify playlist is
                         recommended and a motivational quote is displayed

Reference Request #1

Steve Wolfman
Associate Head of Operations and Professor
University of British Columbia
Vancouver, BC V6T 1Z4

Subject: Request for Reference

Dear Dr. Wolfman,

I hope this letter finds you well. My name is Aman Johal, I was your student in CPSC 210 during Term 2 of the 2022W session.

I am currently about to embark on a search for a Co-op position for September 2023, I found a position of interest as a Web Team software developer at a company called Vidyard. As a former student of yours, I wanted to humbly ask if you would be willing to provide a recommendation letter for this position at Vidyard. I learned a great deal from your lectures, and it helped grow my interest in computer science and the Java programming language. I was wondering if you would be able to write a reference letter centred around these main points.

- My efforts in learning course concepts through lecture and lab
- My interest in programming and knowledge acquisition through the term project
- Your assessment of my performance in CPSC 210

If you are willing to provide a letter of reference, I can send any information you would need, including resume, cover letter, and job posting. Thank you for your time and consideration. I understand that this can be a busy time of year. Please reach out to me via email at ajohal21@gmail.com if you have any questions.

Sincerely,

Aman Johal

Reference Request #2

123 Post St.
Vancouver, BC V6T 2C9

April 13th, 2022

Britany Wong
Pharmacist Manager
Laurel Prescriptions
Vancouver, BC V5Z 3Y1

Subject: Request for Reference

Dear Dr. Wong,

I hope this letter finds you well. This is Aman Johal, we worked together for all of 2022 at Laurel Prescriptions

I am currently about to embark on a search for a Co-op position for September 2023, I found a position of interest as a Web Team software developer at a company called Vidyard. As a former colleague of yours, I wanted to humbly ask if you would be willing to provide a recommendation letter for this position at Vidyard. I feel we worked well together both learning from one another the ins and outs of pharmacy. I was wondering if you would be able to write a reference letter centred around these main points.

- My efforts in managing a team of 4 employees
- My efforts in engaging and actively listening to customers
- Your assessment of my ability to work in a high pace environment in an efficient manner

If you are willing to provide a letter of reference, I can send any information you would need, including resume, cover letter, and job posting. Thank you for your time and consideration. I understand that this can be a busy time of year. Please reach out to me via email at ajohal21@gmail.com if you have any questions.

Sincerely,

Aman Johal

Reference Request #3

Vancouver, BC V6T 2C9

April 13th, 2022

Andrea Acosta
BC Cancer Provincial Professional Practice Director
BC Cancer
Vancouver, BC V5Z 4E6

Subject: Request for Reference

Dear Andrea,

I hope this letter finds you well. This is Aman Johal, we worked together on the Richmond Schoolboard health initiative for Immunize.io in 2022.

I am currently about to embark on a search for a Co-op position for September 2023, I found a position of interest as a Web Team software developer at a company called Vidyard. As a former collaborator of yours, I wanted to humbly ask if you would be willing to provide a recommendation letter for this position at Vidyard. I feel we worked well together both learning from one another planning, organizing, and maintaining a largescale health clinic. I was wondering if you would be able to write a reference letter centred around these main points.

- My efforts in organizing and preparing a largescale clinic
- My efforts in actively listening and responding to customer and clinician needs
- Your assessment of my ability to work as a team leader

If you are willing to provide a letter of reference, I can send any information you would need, including resume, cover letter, and job posting. Thank you for your time and consideration. I understand that this can be a busy time of year. Please reach out to me via email at ajohal21@gmail.com if you have any questions.

Sincerely,

Aman Johal
