Ocean-based industries contribute \$11.1 billion to BC's GDP annually, but healthy oceans are worth even more.

davidsuzuki.org/publications/d...

Canada made a promise to protect 10% of marine areas by 2020. We are less than 5 years away and currently sit @ only 1.3%

The Canadian government has o-fish-ally ignored endangered species!

#OceanConsrvnUBC

- [cbc.ca/news/technolog...](https://www.cbc.ca/news/technology/...)

Canada sidesteps protection of endangered fish, study finds

Endangered fish get less protection than fish that are less threatened because of the way the federal government applies its conservation laws, ...

[cbc.ca](https://www.cbc.ca)

As the country with the longest coastline, we sure don't talk about it much, or teach it for that matter. Now, compare that to hockey.

Ahhhh.....it's full of fish I think?

Photo: SpotterUp.com

Scale of knowledge

I know everything related to hockey.
HOCKEYYYYYYY!!!!!!
