

Assignment 2: **SELECTED CASE STUDY + TEAM PRESENTATION**

The purpose of this assignment is to allow students to learn about initiatives that social entrepreneurs have developed and implemented to address identified systemic issues and gaps. By researching and understanding best practices and “failures”, students gain an understanding of the challenges and successes that social entrepreneurs experience along their journey creating social ventures.

This is a team assignment. After forming diverse groups of five (5), students will explore strategies that have been utilized to address a specific Social Problem. This specific Social Problem may have been one that was identified by a student (or students) in Assignment 1 (*Social Problem Situational Analysis*) or may be an entirely different problem.

Once the team has agreed on a Social Problem (which may include environmental, economic and/or social aspects), the next step is to research how social entrepreneurs have responded to fill the gaps. Of course, not all of the enterprises will be successful. Remember, we often learn more from strategies that may not have worked as originally anticipated. Selected Case(s) may be local, national or global.

Elements of the Case Study may include, however are not limited to, the following:

- **Problem/Issue** ~ Brief description of the social problem that the initiative is attempting to “solve” or address. It is important that the reader/audience has a clear understanding of why this is a problem. Be sure to include details of the context (region affected, underserved communities, etc.). If possible, speak to the larger system in which this problem is situated.
- **Social Enterprise** ~ Include a description of the social enterprise. (You may find the nine categories of the Business Model Canvas may provide a useful guideline. However, you are not limited to this format.) Describe how the venture attempts to address or “solve” the identified root problems and related issues. Pay particular attention to how the social entrepreneur(s) have responded to the gaps in the system they have determined. How did they hope to create a positive impact on the system? For whom were they designing their initiatives and who did they leave out?
- **Outcomes** ~ Describe the status and outcomes of the initiative – would you describe it as successful or not and why? Whether successful or not, what are some of the challenges that were faced. Is the enterprise still active? Has it scaled? If not, try to determine why the venture was not successful.
- **Key Learnings** ~ What are the key learnings and takeaways from this Case?
- **Future Iterations** ~ If your team were to attempt to redesign the selected social enterprise (whether currently successful or not), how might you do this?
- **Resources** ~ References must be clearly indicated for all sources used. Use of graphics and images to support your findings is encouraged.

PLEASE NOTE: This is a team assignment and represents 15% of the final grade.
