Subject: Reference letter

Dear Dr. Perrin,

Thank you for allowing me the opportunity to work in your lab the last two years. It has been a great experience and has allowed me to pursue my interests in organic chemistry. I am currently applying to the Ph.D program at UBC chemistry as I would like to continue in your lab as a graduate student. This requires three reference letters and I would like you to be one of my referees. Please provide me with a reference letter indicating my experience and work in the lab. Also, include any academic insights from when you taught me in the CHEM 461 class.

If you are not able to supplement me with a reference letter or there are any questions email me at [ethanfung5080@gmail.com](mailto:ethanfung5080@gmail.com). I look forward to hearing back from you.

Sincerely,

Ethan Fung

Vancouver, B.C., V6T 1Z3

Subject: Reference letter

Dear Dr. Yip,

Hopefully you and your personnel are doing well.

I am currently applying for graduate school at UBC chemistry, specifically the direct entry Ph.D program. The experience that I obtained from working for you as a work-learn student was indispensable. Even though I am pursuing a different area of study, your lab showed me what it means to be a scientist and allowed me to make meaningful connections. I am truly grateful. Please provide me with a reference letter to speak on the work I have done as a volunteer and work-learn student.

If you are not able to supplement me with a reference letter or there are any questions email me at [ethanfung5080@gmail.com](mailto:ethanfung5080@gmail.com). I look forward to hearing back from you.

Sincerely,

A handwritten signature in cursive script that reads "Ethan Fung".

Ethan Fung

Vancouver, B.C., V6T 1Z3

Subject: Reference letter

Dear Dr. Li,

I hope you are doing well.

It was a pleasure working with you and winning the Indicium research competition together. Currently I am in the process of applying to graduate school at UBC chemistry. I would like to ask you to provide me with a reference letter commenting on the work that I have done on the project and writing the paper for the study.

If you are not able to supplement me with a reference letter or there are any questions email me at [ethanfung5080@gmail.com](mailto:ethanfung5080@gmail.com). I look forward to hearing back from you.

Sincerely,

Ethan Fung
