

CALL FOR ABSTRACTS

14th Annual

CROSSROADS INTERDISCIPLINARY HEALTH RESEARCH CONFERENCE

Expanding the Horizons of Health

March 11 & 12, 2016

Dalhousie University, Halifax NS

Dalhousie University's School of Health and Human Performance Graduate Student Society formally invites you to the 14th Annual Crossroads Student Conference.

CONFERENCE DESCRIPTION

Designed as an adjudicated, peer-reviewed academic forum for undergraduate, graduate, and professional program students, Crossroads is a unique opportunity for students to showcase and engage in dialogue about their innovative health research. Emphasizing the importance of interdisciplinary exchange, the conference welcomes submissions from a wide range of health-related disciplines. The mission of the Crossroads Conference is to advance the understanding of health through interdisciplinary research. Crossroads provides workshops and networking opportunities on March 11th and adjudicated student presentations on the March 12th, with keynote speeches on both days.

CONFERENCE GOALS

- To showcase student research in a wide range of health-related disciplines
- To provide a forum for networking and collaboration among student health researchers
- To engage with and learn from health leaders throughout Canada

WHO SHOULD ATTEND

This conference will be of interest to any student who is studying any aspect of health at the undergraduate, Masters, and PhD (including Post-doctoral) level and interested in learning about and sharing health research including, but not limited to, the following disciplines:

Health promotion, kinesiology, recreation management, leisure, social work, nursing, health administration, nutrition, psychology, physical and occupational therapy, pharmacy, and medicine.

CALL FOR ABSTRACTS

As part of the learning process, students are invited to present at Crossroads. Oral presentations (10 minutes with 5 additional minutes for questions) and poster presentations will be accepted.

Abstracts addressing three types of presentations will be considered:

1. Presentations about research projects that involve original data and/or analyses (original contribution: data-based)
2. Presentations of original syntheses of the literature (original contribution: literature review/synthesis, commentary)
3. Presentations of proposed research projects (original contribution: proposal)
