Hiring Manager  
Railz Human Resources  
Railz Financial Technologies Inc.  
Toronto, ON M5T 1X5

Dear Railz Hiring Manager,

Please consider my application for the QA Automation intern role as advertised on the UBC Careers Online Web site. I am expected to graduate from the University of British Columbia in 2025 and am currently seeking opportunities to work in the field of technology and finance. Railz as described by the job description, appears to be the perfect combination of the two subjects.

As indicated in the enclosed resume, I have non-programming and leadership experience in the retail pharmacy setting, as well as a passion for mentorship. These experiences combined with the skills acquired during my university education will make me a versatile member to have on your team.

I am familiar with using Git and have a fundamental knowledge of software development concepts. I am familiar with Java and R programming languages and working with data from my university course work in data science and statistics.

As a computer science student, working professional, and former manager I understand the value of time and the importance of accountability. My experiences and education have helped me overcome challenges and find creative ways to solve problems.

If my background and skills fulfill your criteria, please contact me at [michael.ly239@gmail.com](mailto:michael.ly239@gmail.com).

Sincerely,

A handwritten signature in black ink, appearing to read 'Michael Ly', written in a cursive style.

Michael Ly
