Time zone Converter

TimeandZone.com is a quick world time converter that allows you check what time it is, was or will be in any country or city around the world. Simply start typing the name of your chosen location(s) in any of the boxes in the second row, select the suggested place from our database and if you want to, edit the pre-set value(s). The calculated result will display automatically. You can also modify the result or change any of the locations you've previously entered. The values will update accordingly.

SCIENTISTS

In this section of the website you will find short biographies of some of the most famous Danish scientists.

A number of Danes have made significant contributions to philosophy, linguistics, astronomy, physics and astrophysics - to name just a few fields of science where Danish scientists stand out.

GREAT DANISH SCIENTISTS

Dinner in Aarhus...

Casual conversation about Denmark turned into a shocker for our hosts

Serendipity or Not?

Serendipity means a "fortunate happenstance" or "pleasant surprise".

Was my father's questions serendipitous or did he do it on purpose to get me ready?

**And when we think we know it all...
remember our parents might know more...**

Dedicated to my Dad with love and gratitude
