

**Global Queer Research Group
Planning Meeting
May 30th, 1-3pm
3rd Floor Board Room
The Liu Institute for Global Issues**

The Global Queer Research Group (GQRG) is a new research group initiative based at the Liu Institute for Global Issues, UBC. The purpose of the GQRG is to connect scholars, activists, and community members around research and policy issues concerning lesbian, gay, bisexual, transgender and queer communities, both locally and globally. The GQRG is open to graduate and undergraduate students.

Goals for this planning meeting:

1. Settle on topics and readings for a monthly reading group focusing on critical studies of sexuality.
2. Propose and organize events for the upcoming year (i.e. film screening, art shows, lectures, workshops, panels).
3. Organize a website and online network service.

For more information please contact GQRG: global-lgbtq@interchange.ubc.ca
