How to Delete Apps 2.0 Folder

Step 1: Un-hiding the Apps Folder on your computer

• Open windows explorer (or My Computer)

• Click on "User"

• Select the folder with your name

- Press "Alt" on your keyboard
 - You will now see the normal menus on the top (File, View, Tools, etc)
- Select "Tools" and then select "Folder Options"

Select a file to preview. Firacing

• Click "Apply" and "Ok"

Step 2: Delete the Apps 2.0 folder

• Double click on "App Data" folder

• Double click on "Local" folder

• Double click on "Apps" folder

- Single click on Apps 2.0 to highlight folder
 - Right click for a short cut menu
 - o Scroll down and click "Delete"

Restart Computer

This is most likely a very big folder, but don't panic. Deleting this file will allow Scientia to load on the new dedicated server. It will result in a loss of the column preferences that you had previously set-up. You will need to re-do your column layout preference after your first log in.
