

OCTOBER 14 - 15, 2016 | VICTORIA, BC

Join us for a groundbreaking forum to learn, converse, and connect about the healing potentials of psychedelic medicines. Find out more about the current state of MDMA research for alleviating PTSD; Ayahuasca therapy for treating eating disorders; Psilocybin studies and implications for cancer patients and end of life issues; training possibilities for psychedelic psychotherapists; as well as a legal initiative to provide a path to legitimate clinical use of psychedelics in psychotherapy; and more...

Hear from presenters including **Rick Doblin**, Founder and Executive Director of MAPS (Multidisciplinary Association for Psychedelic Studies), Marcela Ot'alora, William Richards, Adele Lafrance Robinson, James Jesso, Meaghan Buisson, Donna Dryer, Richard Yensen, Kirk Tousaw, Devon Christie, Mark Haden, Sarah Mattson, Yalila Espinoza, Daniel Maté, Tanya Maté, Kenneth Tupper, Frank Echenhofer, Trevor Millar, Hayden Rubensohn, Zach Walsh, and Kevin Parker.
