

Finance Track Requirements

Knowledge is power in the competitive field of finance, and you'll gain plenty of it in this track. Hone your financial analytical skills and learn to apply the principles of financial economics to investment, commercial and retail banking, corporate finance, trading, and risk management.

Develop innovative approaches and products for both individuals and institutions. Become an authority on topics like: mergers and acquisitions, capital budgeting, strategic financial management, corporate restructuring, credit analysis, private equity and venture capital.

Careers available to Finance graduates span asset management, investment banking, risk management, financial engineering, corporate finance, securities sales and trading, commercial banking, and financial consultancy.

Students must take:

- 12 MBA required modules (12.75 credits)
 - 5 Track required modules (6.75 credits)
 - 6 Track electives (9 credits)
 - 6 MBA electives (9 credits)
- Total: 29 modules (37.5 credits)**
