TARGETING: Employment related to the Mineral Exploration and Mining Industry

Results-driven and self-directed Geology Student at the University of British Columbia with over 4 years of professional experience working in remote locations. Offering robust analytical, research, and organizational skills coupled with a strong technical and methodical aptitude. Recognized as an astute strategic thinker with a record of identifying issues, assessing environments, and developing lasting solutions with limited resources.

Effective communicator who quickly builds trust and confidence when exchanging information among stakeholders. Adept at juggling multiple projects and tasks simultaneously, ensuring all requirements are always met. Maintains a high standard of professionalism and determination while facing stressful and unexpected situations in fast-paced environments.
