

## Midterm 1 reflection forms

- Reading the class notes and reviewing webwork problems are the most essential part of exam preparation.
- **Student who scored 90% or above in their exam spent approximately 30% of their time on class notes and 20% on reviewing webwork problems.**
- 

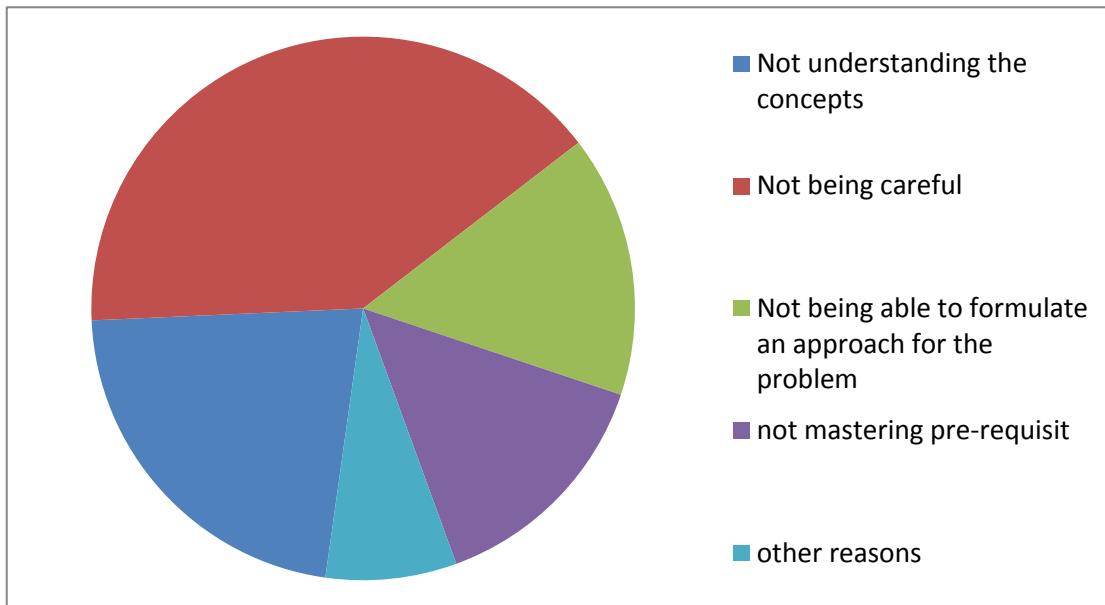

Figure 1: Why students lost mark?

- It is absolutely essential to start your webwork problems as early as possible.
- **Students who scored 90% or higher in their exam start their webwork problems on day 5 or earlier. On the other hand, student who scored 70% or less, started their webwork on day 8 or later.**
- As for changing your study habits, three main themes were common: 1) Come to office hour, 2) Practice more. 3) Be more careful on the exam.

- [Old exams](#) are a valuable resource for exam preparation. Remember that some of the old exams do have a solution key. Check [searchable database](#).
- Two or three sets of extra problems are posted every week. If you need more, check out [CLP problem booklet](#) .
- Office hours are *Mondays 2-3 MATH Annex 1118, Tuesdays 9:45-10:45 LSK 300B* and *Fridays 9:10 LSK 300B*.
- As for suggestion to the instructor, the main theme was to have more practice problems.
