Dear Stacey,

I am writing this letter to request your permission to include you as a reference for my application as a Bioinformatics Researcher in Software Development & Data Mining through the WorkLearn program at UBC.

As you know I was your intern for 8 months working directly under you. You were a key factor in my success at SMART and managed all of my projects and activities throughout those 8 months. These factors make you a great candidate to be my reference.

If you have any questions or concerns please contact me through email at bhawandeep.kambo@gmail.com.

Sincerely,
Bhawandeep S Kambo
