

Seeking nursing students and recent grads

Paid opportunity

The project

Are you excited to advance the nursing profession? Want an opportunity to apply your new nursing skills and support your ongoing development as a nursing professional? **The Nursing Community Assessment Service (NCAS) is looking for nursing students or recent grads** to review and test the content of a bilingual, multi-profession nursing exam.

The opportunity

You can sign up for either or both of the following phases:

Pilot test (May 2023): As a **pilot-tester**, you will be part of a virtual focus group. You will review and share feedback on the content of a nursing assessment alongside other subject matter experts.

Field test (June 2023): As a **field-tester**, you will get to practice and apply your nursing skills by answering a 2 to 3-hour computer-based exam testing entry-level RN and/or LPN competencies.

Details

To participate you must:

- be completing your last practicum in an LPN or RN program; or
- have recently graduated from an LPN or RN program

This activity will be paid. Bilingualism (English and French) is an asset but is not required.
