facebook

**“TRUE BLOOD” VS REAL BLOOD VS SYNTHETIC BLOOD**  
“Dare to find out!”

**An overview of what vampires want, what transfusionists want, what blood is available in the blood supply and also what may be in the pipeline**

**You are invited to join the debate at our next Cafe Scientifique session**  
**Dr. Maria I.C. Gyongyossy-Issa and Dr. Gershon Growe**  
UBC Department of Pathology and Laboratory Medicine

**Maria** is a member of UBC Centre for Blood Research. She started in Microbiology at UBC, went on to a PhD In Immunology in London, UK, and was the first to describe antigen receptors on T cells. With many digressions, her work has moved from white blood cells to other blood cells: platelets.

**Jerry** is the Medical Consultant to Canadian Blood Services' BC & Yukon Centre and a specialist in blood transfusion, clinical hematology and hemophilia and the ethics surrounding them. He is the director of the UBC/CBs Transfusion Residency Program.
