To Whom It May Concern,

Re: Meteorologist, On-call. [<http://legacyweb.theweathernetwork.com/careers/web/pdfs/Meteorologist%20On%20Call.pdf>]

I am writing to express my interest in becoming an on-call meteorologist with the Weather Network, where I can use my experience and skills to provide accurate and detailed weather information in a vibrant and dynamic environment.

I graduated from UBC in 2007 with a degree in Atmospheric Science. I have been working as a meteorologist for the past 10 years.

I am currently an operational meteorologist working for Environment and Climate Change Canada. My work duties involve weather analysis and prognosis using surface observations, remote sensing data and numerical weather prediction data. I provide support to emergency management community and media, prepare and deliver scientific presentations to various partners and stakeholders, and collaborate with other regional and national working groups to develop and give recommendations. I have extensive experience in prediction, trend analysis and data manipulation.

Please refer to my resume for further details regarding my work experience and qualifications. If you have questions, please call me at 604-765-4321 or email me at cindysjyu@email.com. I look forward to hearing from you soon.

Thank you!

Sincerely,

Cindy Yu
