Profile

I am a meteorologist with more than 10 years of forecasting experience. I am highly skilled in the weather forecast, climate analysis, data examination and Numerical Weather Prediction evaluations. I have provided weather analysis and briefings to TV on-air personals, program staff, key clients and stakeholders at the federal and provincial government levels.

Employment History

Meteorologist, Environment Canada Vancouver — 2008- Present

- Provided public and marine forecast for BC, Yukon and high Arctic, high elevation
- forecast for BC Mountain Passes, and weather forecast for Avalanche Canada
- 1-900-565-555 Weather consultations for film, constructions, Parks Canada, Fisheries and Oceans, farmers and independent organizations
- Delivered briefings to provincial clients and stakeholders such as Emergency Management of BC, Provincial Technical Drought Working groups, Wildfire services and River Forecast Centre
- Provided media interviews
- Outreach Liaison with various post secondary schools 2013 - Present
- Provided guest lectures for several local universities on radar and satellite

Operational Meteorologist / Briefing Meteorologist, the Weather Network — 2007 - 2008

- Prepared daily forecast using Graphical Forecast Engine (GFE)
- Prepared weather analysis graphics for TV using Borealis
- Briefed on-air presenters with weather forecast and warnings
- Lead and supervised meteorologists on developing new Borealis products
- Completed on-camera interviews and promotional clips for the station

On-call Weather Producer / Briefing Meteorologist, CTV-Vancouver, Vancouver — 2005-2007

- Prepared weather graphics for the daily 5, 6 and 11pm news using WSI

Board Experience

Vancouver Chamber Music Society (<http://www.vancouverchambermusic.com>)

December 2015 - September 2016

- I served as a board of director for Vancouver Chamber Music Society for a short period. My duties included taking board meeting minutes and seeking for sponsorships
