

Imagination Quest: A Journey from Space

Assignment & Grading:

Students will submit all assignments in-class for grading. Projects will be posted on the Class Moodle LMS, which will be shared with your colleagues within and outside of this course. These assignments are designed in open format to promote collegiality, collaboration, exchange of ideas, and sharing educational design solutions.

	Option	Grade	Due (11:59 AM PST)
Assignment #1- Solution to Scenario	Individual	10%	September 22, 2017
Assignment #2- Design a 3D image using TinkerCAD	Individual or group	20%	October 13, 2017
Assignment #3- 3D printing	Individual or group	20%	October 27, 2017
Assignment #4- Stopmotion Video	Individual or group	30%	November 17, 2017
Discussion Participation		20%	Ongoing

Note: the assignment due dates are firm; the only reason asking for an extension is a medical or personal emergency. Late submissions will result in a lowered mark.

Collaboration:

For assignment 2, 3 and 4, you can choose to work in a group or individually. Since these three assignments are linked, you must do them all individually or as a group. Use the Student Café Discussion tab to find group members. Sign-up sheets will be posted in class. Groups can have a maximum of 4 members.

References Format:

In the text assignments and project documentation, please use [APA style reference format](#) (American Psychological Association). Academic standards require using APA style to cite sources for research papers, in-text citations, endnotes/footnotes, and the reference page.
