What were the most effective aspects of this TA's teaching?

What were the most effective aspects of this TA's teaching?

Engaging, clear, and to the point.

engaging presentation on lobsters

I really liked David's lecture on the Atlantic lobster fishery - it gave us such an in-depth understanding of all things lobster and was really engaging throughout the whole two hours. And he gave helpful feedback on our essay outline which allowed me to excel in my review paper!

I really like his lecture slides and way of teaching

Kindness and understanding

Very open to conversations and questions, and was very straightforward with recommendations as well as expectations

TA gave many useful suggestions for the review paper.

David was obviously very interested in his research he presented to us about lobsters and it made for an amazing lecture. He also had a very quick turnaround time when it came to grading assignments for students and gave very constructive criticism.

In your view, how could the TA's instruction be improved?

In your view, how could the TA's instruction be improved?

I think better feedback could have been given on the outline, as there was very little to work with, and then the final review paper was graded quite harshly

A few more constructive comments when grading our assignments - I'm always looking for where to improve!

Nothing in particular comes to mind

Nothing, he was great

David was great! As a TA I couldn't say I'd ask for more

TA's instruction is good enough for me.

I really enjoyed your lecture on lobsters. You are a great instructor and presenter, making the information engaging, clear, and also thought provoking. I really enjoyed the structure of your presentation, as it really digestible.

The guest lecture about lobster was excellent!

Thanks for great semester!
