Ms. Perna Dugar
President
UBC Arts Co-op Student Association (ACSA)
6133 University Blvd.
Vancouver, B.C. V6T 1Z1

Dear Ms. Dugar,

Hope this letter finds you well. Here is my report, 'Increasing the Number of Participants in ACSA's Mentorship Program.' In preparing this report, I have learned a great deal about the importance of cultivating mentoring relationships for young students and how the UBC Arts Co-op Student Association (ACSA) is working hard to facilitate these relationships. I am confident that the information contained within this document will benefit your executive team moving forward with the ACSA Mentoring Program. Thank you for your guidance and encouragement throughout this process.

Although many students are interested in pursuing a mentoring relationship, they are often unaware of such opportunities that are offered as part of the co-op experience. ACSA's Mentorship Program is an excellent way for students to connect their academic studies with their professional pursuits.

While there were some challenges in receiving detailed responses from online surveys and oral interviews, ultimately those findings provide some insight into how students are engaging with student-led activities that focus on mentoring. The report is limited to the responses received by the prescribed deadline and the data section highlights all key findings. This is precisely the kind of information that is necessary to expand the ACSA Mentorship Program and inform more students about the benefits of such relationships.

I have enjoyed the work done on this project and would be happy to answer any questions that may arise. If you have any comments regarding the report, please feel free to email me at: e.fasciani@alumni.ubc.ca.

Sincerely,

Eugenia Fasciani
