Adrian Bond
Programme Manager: Recycling
Edinburgh, Scotland

Dear Adrian,

Waste management is one of the biggest problem human facing at the moment. To address the issue in Edinburgh, please accept my formal report on: "Targeting waste management at Zero Waste Scotland's Circular Economy Accelerator Programme".

The report summarizes my findings from data collection through various ways such as survey and interview. My findings suggest that there are still a lot of people don't understand the concept of Reuse, Reduce and recycle. And the report provides potential solutions such as web application which lead an environment-friendly life.

I hope that you agree with my proposal and finding those research and data helpful for your future decision making. If you have any questions about my report, please feel free to contact me at 1416518573@qq.com.

Kind Regards,
Shuge
