Dr. Kristen Upton
Virology Professor
University of Victoria
3800 Finnerty Rd,
Victoria, BC V8P 5C2

Dear Dr. Upton:

I am looking to apply to a software engineering internship at Amazon. Would you be willing to act as a reference as I search for a summer co-op position? I understand if you are too busy to make this commitment. Either way, I value the time spent working in the Upton lab and learning bioinformatics principles.

Since then, I have completed an eight-month co-op where I tested a urinalysis medical device. Currently, I am studying hard for a second degree in computer science at the University of British Columbia. Attached is an up-to-date resume if you would like to know what I have been doing. Hopefully it makes responding to follow up easier.

Thank you for your previous letter of recommendation for the computer science program. I hope that the virology research group is doing well. Please feel free to ask for more information if you need it.

Best regards,

Phillip F. Tellier
PFT

Ronald Hoff
Laboratory Manager
YouCount Inc.
3800 Finnerty Rd,
Victoria, BC V8P 5C2

Dear Mr. Hoff:

I am looking to apply to a software engineering internship at Amazon. Would you be willing to act as a reference as I search for a summer co-op position? I understand if you are too busy to make this commitment. Either way, I value the time spent working in the YouCount Laboratory and learning how to properly test a medical device.

Since then, I have been studying hard for a second degree in computer science at the University of British Columbia. Attached is an up-to-date resume if you would like to know what I have been doing. Hopefully it makes responding to follow up easier.

I hope that the laboratory testing is going well. Please feel free to ask for more information if you need it.

Best regards,

Phillip F. Tellier
PFT

John Richardson
General Manager
Incredible Home
462 Burnside Road East,
Victoria, BC V8T 2X2

Dear Mr. Richardson:

I am looking to apply to a software engineering internship at Amazon. Would you be willing to act as a reference as I search for a summer co-op position? I understand if you are too busy to make this commitment. Either way, I value the time spent working in the closet shop at Incredible Home.

Since then, I have completed an eight-month co-op where I tested a urinalysis medical device. Currently, I am studying hard for a second degree in computer science at the University of British Columbia. Attached is an up-to-date resume if you would like to know what I have been doing. Hopefully it makes responding to follow up easier.

I hope that things are going smoothly at the closet shop. Please feel free to ask for more information if you need it.

Best regards,

Phillip F. Tellier
PFT
