Dear Dr. Olsen,

I hope that you are well. Enclosed is my report titled, "Proposal for the Construction of a Towing Tank at the University of British Columbia." My proposal details the need for a Towing Tank at the University of British Columbia and I make a case for the construction of a new Towing Tank.

The report shows that there exists a lack of Towing Tanks in Canada, that certain research opportunities are missed due to this lack of Towing Tanks and that there exists a market for the Towing Tank and that this market will offset the universities costs.

Thank you for taking the time to read my report. I am eager to discuss my report with you in further detail should you wish. Please do not hesitate to contact me via email at kobierski.sm@gmail.com.

Thanks kindly,
