Dear Chris,

I hope that you are well since we last spoke. I am writing to you today seeking a reference letter as I am currently searching for employment and I know that a reference letter from you will greatly increase my chances of finding employment. Having taken multiple courses with you, most recently MECH 488, your wealth of knowledge and passion for Naval Architecture is inspirational.

I am looking for employment within the marine industry in British Columbia, which I hope my previous experiences with the Department of National Defence as a Marine Fitter, Project Planner, and Hull Surveyor, will prove to be of interest to potential employers. To assist you with writing a reference letter, I have attached a copy of my Curriculum Vitae for your reference.

Should you choose to write a reference letter on my behalf, and you require further information, please do not hesitate to contact me via email at kobierski.sm@gmail.com.

Thanks kindly,
