Dear Ms. Hamidi,

Please see my attached report on the Feasibility Analysis for the Addition of Practical and Life Related Courses at UBC. In order to assist you and the rest of the AMS Student Council with what courses are in demand by the students, I have collected data from a sample of UBC students in regard to practical life courses that could be offered through the Alma Mater Society.

It has been an honour to conduct this report for the students of UBC. I hope that the findings will be useful in preparing the courses and schedules for the coming years for AMS. If you have any questions or would like to discuss the content of this report, please contact me via email at [mahsa\\_09@hotmail.com](mailto:mahsa_09@hotmail.com).

Best regards,
