Dear Milestones Management Team,

Attached you will find my proposal for a new waste management program to be put in place here at Milestones Bar and Grill. This proposal is not meant to shame our current program, however, it is meant to show that a new program would better serve both our business and our community.

My research has been compiled over several weeks, as I have looked into statistics concerning our food costs, conducted interviews with staff members, and researched the help needed within our community for charitable organizations that deal with the donation of food. Upon bringing to light my findings I then discuss the benefits of adopting a new waste management program.

It has been my pleasure to look into this matter, as I am eager to give back to the community that has been so good to us for so long. I also have our business' best interest in mind, as my dedication to Milestones is strong.

Please feel free to contact me via email, taylor.a.smith199@gmail.com, if you have any questions or concerns, I would be happy to discuss them with you.

Best,
Taylor Smith
