Letter 1:

To: Jackson Fregeau

Subject: Reference request from former intern Konstantin Mestnikov

Dear Jackson,

I hope things at Quandri are doing well!

I started searching for an employment as a software engineer and would love to list you as my reference if you are open to it.

The time at your company is the most relevant work experience in the field of software, and so you would be the most knowledgeable person when it comes to assessing my qualifications and strengths.

Please, let me know if you have any questions. Attached is my current resume. Thank you for your consideration, and I am looking forward to hearing from you.

Best,

Konstantin Mestnikov

Letter 2:

To: Miikka Silfverberg

Subject: Reference request from former research assistant Konstantin Mestnikov

Dear Miikka,

I hope you are doing well, and that this summer was a productive time for your research work!

I started searching for an employment as a software engineer and would love to list you as my reference if you are open to it.

Working at your lab was the first time I was able to work on a software-related project. Furthermore, the skills relating to building web applications, just like the one for the Gitksan language, are in high demand among the hiring companies. So, your judgement will be very valuable for the potential employers in assessing my level of skill and relevant qualifications.

Please, let me know if you have any questions. Attached is my current resume. Thank you for your consideration, and I am looking forward to hearing from you.

Best,
Konstantin Mestnikov

Letter 3:

I started searching for an employment as a software engineer and would love to list you as my reference if you are open to it. Working at your lab was the longest employment experience for me so far, and you have proven to be a valuable mentor and considerate employer, who would know best about my strengths and transferable qualifications.

Please, let me know if you have any questions. Attached is my current resume. Thank you for your consideration, and I am looking forward to hearing from you.

Best,
