Concusso Check

For teachers, parents and coaches of sports teams at all levels,
who need to be able to detect concussions when they happen, without special training,
our product Concusso-Chek is a balance-measuring sensor and a machine-learning app on your smartphone that tells you whether to send the player back into the game, or to the doctor.

Diabeter

For Parents of diabetic children
who need to protect their child's health and avoid causing pain if at all possible
our product Diabeter is a blood glucose monitor
that provides a painless way to determine when blood samples are necessary, and when they can be avoided.
