

TUG OF LOGIC:

A COMPETITIVE BOARD GAME FOR COLLABORATIVE REASONING

Join philosopher, author and public intellectual, Dr. Michael Picard as he introduces, demos and discusses the new board game, Tug of Logic.

The game is a part of the annual Canadian High School Ethics Bowl, which takes place at the Canadian Museum for Human Rights, where recently it was played by almost a hundred students. It has been adopted as a resource for graduate students and teacher training by The Collaborative, an international network that seeks to integrate Humanities teaching and learning across all educational levels.

Dr. Picard will briefly explain the game, facilitate the game, then hold a discussion.

FRIDAY MAY 31, 2019

2:00-4:00 PM

SCARFE LIBRARY BLOCK 278

Dr. Michael Picard completed his MSc and PhD at MIT, writing on philosophy of mathematics. Author of *This is Not a Book* (2007), founder of Victoria's 12-year weekly Cafe Philosophy events, APPA-certified philosophical counsellor (www.philosophical-coaching.com), and recent creator of Philosophy Sports, Picard has taught widely in cognitive science, psychology, leadership and sustainability. He currently teaches philosophy at Douglas College and elsewhere in the lower mainland.
