Subject: Application for Student Geologist Position

Dear Hiring Manager,

I am writing to express my interest in a Geology Summer Student Position for the 2017 field season. I am a third year geology student at the University of British Columbia scheduled to graduate in 2018. I am a driven, highly organized student that is no stranger to hard work. My academic career has sparked my interest in mineral exploration and field mapping. I look to build on this knowledge with further work experience in the mining sector this summer and into the beginnings of my career after graduation.

My previous work experience has allowed me to develop qualities such as perseverance and attention to detail, most recently through my work with Wilco (a landscape and civil construction company) working 60-70 hours/week. I also excel at problem solving and customer communication as developed through my years as a hockey referee as well as my experience dealing with objections to controversial city projects as an employee at Wilco. Through my work experience I have become skilled in safe work practice, managing fast paced environments, working long hours and managing my time within tight deadlines. I am an energetic and outgoing individual who thrives on new challenges and would welcome the opportunity to contribute to your team of professionals.

I am looking to get involved in TAQA to improve upon my field skills and gain valuable experience within the industry. TAQA's commitment to safety and passion to exceed industry standards while caring for the environment align with my personal aspirations for a future within the industry. I desire to learn from an experienced team of professionals and further my knowledge and skills of geology while practicing responsible exploration.

I am confident that my experiences, skills and strong interest in the goals of TAQA have prepared me to be a strong addition to your program. I look forward to discussing my qualifications with you. Thank you for your time and consideration.

Kind regards,

Eric Driver E.D.
