Attention: Faculty of Dentistry Admissions Office

Please consider my application for a spot in the Master of Craniofacial Science Program at UBC. My academic achievements include a Pre-Health Science Certificate and a Dental Hygiene Advanced Diploma. I remained on the Dean's Honours List throughout both programs. I am a registered dental hygienist and I am currently enrolled at UBC for a Bachelor of Dental Science in Dental Hygiene and will graduate in 2022. I believe my coursework in dental anatomy, oral pathology and oral epidemiology combined with my employment experience make me an excellent candidate for this graduate program.

During my time at Algonquin College, I participated in numerous volunteer positions and placements. I have trained and educated nurses on providing oral hygiene care to patients, provided dental hygiene care to youths affected by drug addictions and homelessness and performed oral assessments on patients admitted to the hospital. While enrolled in the Bachelor of Dental Science in Dental Hygiene program at UBC, I have gained experience in statistical concepts relevant to the analysis of oral health sciences literature as well as dental hygiene concepts related to education, health promotion and policy issues. My work experience as a registered dental hygienist has not only taught me the importance of prevention and education of oral disease, but also initiated my drive and passion to increase my knowledge and qualifications by pursuing a Master of Craniofacial Science.

My references will confirm that I am hard working, disciplined, enthusiastic and reliable.

If you feel that I would be a suitable candidate for a spot in this graduate program, I would welcome an interview at your convenience.

Sincerely,

Erin Mungham
