Subject: Reference Letter Request

Hi Paul,

I am writing to ask if you would be willing to write a letter of recommendation for me for a [position with Blender Media Inc as a junior front end developer](#). I took your COMP 1409 class in spring 2016, and I am now interested in pursuing a career in software development with a focus on user experience after completing the second degree computer science (BCS) program at UBC.

Your class inspired me to pursue programming as a career option after I discovered how much I enjoyed thinking analytically and solving problems via your assignments. Prior to taking your class, I had a background in marketing and a degree in Asian Studies. However, I quickly realized that I enjoyed the way programming challenged me intellectually and encouraged me to solve problems creatively, so much that I decided to change directions for my career.

Please let me know if this is something you can assist me with -- the deadline for the application is August 12. I can collect the letter from you at BCIT's downtown campus at your convenience.

Best,

Judy Chern

Hi Laura,

I am writing to ask if you would be willing to write a letter of recommendation for me for a [position with Blender Media Inc as a junior front end developer](#).

I was a UBC CPSC 110 student during the Winter 2016 term. I greatly appreciated your assistance and patience as a teaching assistant for that course. Your knack for simplifying the logic behind computer science problems gave me more confidence in my programming abilities, and inspired me to pursue a career in software development.

Please let me know if this is something you can assist me with -- the deadline for the application is August 12. I can collect the letter wherever is most convenient for you.

Warm regards,

Judy Chern

Subject: Reference Letter Request

Hi Paul,

I am writing to request a letter of reference for my job search. I took your CPSC 210 course in Winter 2017, and enjoyed the real-life applications of the content in developing robust and user-friendly software.

I have decided to pursue a career in computer science, and would like to enlist your help in applying for a [front-end developer position with Blender Media](#).

Please let me know if this is something you can assist me with, and feel free to contact me if you require any further information.

Thank you,

Judy Chern
