2023 Global Data Summer Internship (Bilingual Japanese/English speaker) - Japan

Tokyo

Posted Jun 8, 2022 - Requisition No. 104268

Bloomberg runs on data, and data drives the market. Our Global Data team acquires and supplies this data to our clients. Teams work collaboratively to collect, analyse, process and publish the data which is the backbone of our iconic Bloomberg Terminal - the data ultimately feeding and moving the financial markets.

The Role:

As a Global Data Intern, you will have a passion for taking raw numbers and turning them into meaningful insights for the world's business and financial decision makers. You will have a natural eye for detail, an interest in the data that feeds the financial markets, and an appetite for understanding how technology can be used to enhance workflows, improve quality and expand coverage. You will collect, clean and present data, which moves markets and empowers our clients to make the right decisions on the iconic Bloomberg Terminal. You will work with our analysts who provide unparalleled customer service, establish relationships with key market players in the financial industry, inspire news content, and revolutionize Global Data at Bloomberg!

What's in it for you:

- Gain hands-on exposure to our systems, processes, clients and the financial markets

- Apply problem-solving skills to identify innovative workflow efficiencies and implement technology solutions to enhance our systems and current processes

- Discover how we maintain the standards of accuracy and timeliness for which our data is famous for

- Carry out real projects that have an exponential impact on our systems and clients

- Learn how we assist our clients with data-related queries

- Receive in-depth training in the areas of terminal navigation, computer scripting languages and professional development skills all from world-class professionals

- Be mentored by one of our experienced Analysts throughout the 6-week internship

- Gain feedback on how to continue to develop your skills and expertise

- Potential to convert into a full-time role, dependent on performance and business need

You'll need to have:

- Strong passion for data, technology and finance

- Demonstrated project/work experience using one or more programming language (e.g. Python, SQL,R etc.)

- Prior coursework or involvement within a field like Information Systems, Mathematics, Finance, Economics, or other applied sciences

- Business proficiency and fluency in English and Japanese

- Ability to communicate effectively and articulate thought process clearly (both written and oral).

- Strong aptitude for problem solving and the drive to think creatively

- A demonstrable commitment to enhancing and developing products

- Currently enrolled in a university with a graduation date between December 2023 and September 2024

- Available to work for the whole duration of 6 weeks from Aug to Sep 2023

We'd love to see:

- Recent work experience, internship or coursework in Finance, Business, Statistics, Engineering, Data Modelling or related discipline

- Interest and/or Experience in customer service or client interaction

- Effective project management skills

- Enthusiasm and commitment to extracurricular activities and interests

Application deadline: 26 May 2023, 6pm JST

Does this sound like you:

Apply if you think we're a good match. We'll get in touch to let you know what the next steps are! Please note this is a two stage application process, following the submission of your candidate details you will receive an email with directions to complete an online assessment. Your application will not be complete until you have submitted the assessment.
In the meantime feel free to have a look at this:

August 8, 2022

Dear Hiring Manager:

Please consider my application for the Global Data Summer Internship at Bloomberg. I am a third-year student majoring Computer Science at the University of British Columbia, and I believe my knowledge in financial markets and experiences in data and technology will make a great addition to Bloomberg.

As you can see from my enclosed resume, I double-majored in International Studies and Business Administration. I have always had an interest in international financial markets and companies in the finance industry. Bloomberg especially fascinated me because it uses a proprietary software tool to provide real-time data, news and analytics to financial companies and professionals. This led me to take Bloomberg Market Concepts, the e-learning course, which enhanced my knowledge in financial concepts using Bloomberg Terminal.

Before pursuing my second degree, I worked as a full-time research assistant at a marketing research firm. In addition to researching product markets in the Asian context, I collected and processed raw data to provide meaningful information to customers or clients, which required quickly learning and using software tools. I believe my experiences in handling data and knowledge in programming will make me an ideal candidate for the position.

As a motivated learner, I would love to gain experience and grow in a thriving environment among financial and technological experts. If you give me the opportunity, I am positive that I can work well with the team and make small but meaningful contributions.

Thank you for taking the time to consider my application. I look forward to hearing from you.

Sincerely,

Jeemin Kim

Jeemin Kim

Referee One
Professor, Department of Asian Studies
University of British Columbia
Vancouver, BC V6T 1Z4

Dear Professor:

My name is Jeemin Kim and I took your Intermediate Japanese course last year. I hope you have been doing well ever since.

I am reaching out to you because I wish to request a reference letter for the internship I am applying for. I would be grateful if you could be a referee for my application. As you can see from the attachment, I am applying for an internship at Bloomberg Japan, which requires proficiency in Japanese. I would appreciate if you could outline the Japanese skills that I have shown during class.

Thank you for taking the time to review my request. Please let me know if you need any additional information.

Sincerely,

Jeemin Kim

Referee Two
Professor, Department of International Studies
Ewha Womans University
52 Ewhayeodae-gil
Seodaemun-gu, Seoul

Dear Professor:

It has been a while since I've reached out to you for my reference letter request. I hope you have been doing well ever since.

I am reaching out to you because I wish to request a reference letter for the internship I am applying for. As you can see in the attachment, I am applying for an internship at Bloomberg, and the position requires knowledge in finance, data and technology. Given that you wrote my reference letter for UBC, I was hoping you could once again attest for my skills in business analysis and market research that I have exhibited in your Global Strategic Management course.

Thank you for taking the time to review my request. Please let me know if you need any additional information.

Sincerely,

Jeemin Kim

Referee Three
Team Manager, Insights
Kantar Korea
52 Gukjegeumyung-ro
Yeongdeungpo-gu, Seoul

Dear Manager:

My name is Jeemin Kim and I was your team's intern last year. Thank you for the opportunity to work at Kantar and learn so much from a thriving environment. I hope you have been doing well ever since.

I am reaching out to you because I wish to request a reference letter for the internship I am applying for. As you can see from the attachment, I am applying for a position at Bloomberg, which requires both technical and interpersonal. I was hoping you could outline my skills and contributions to the team as an intern at Kantar.

Thank you for taking the time to review my request. Please let me know if you need any additional information.

Sincerely,

Jeemin Kim
