Professor Linda McKay
Professor of Health Promotion and Epidemiology
George Brown College School of Dental Health
Toronto, ON M5A 0B6

Dear Professor McKay,

This is Jessica Arnold from the dental hygiene graduating class of 2014. I hope you are doing well. I would like to have you as a reference for a dental hygiene position I am applying for with the Middlesex-London Health Unit. This position will allow me to provide educational seminars, engage in school screenings, initiate clinical procedures to individuals on the Ontario Works program, and become involved in fluoride and sealant programs in the area.

I feel as though you are familiar with the experiences and growth I had when working with Toronto Public Health, Parkdale Community Health Centre, Baycrest Geriatric Hospital, and Downtown Montessori as you were the professor who coordinated with these facilities. I would love for you to mention the research project we engaged in together, and the collaborative work required to yield the finished product. Teamwork is such a strong basis for public health; therefore, I would like them to know I have some experience in this area.

If you could please provide me with a letter of reference to the Human Resources Department at the Middlesex-London Health Unit, I would greatly appreciate this. It is due to by April 8 through fax (519-663-5086) or email (recruit@mlhu.on.ca) to the health unit. You have taught me a great deal and I would like to pass that information onto my community. Here is a link to my LinkedIn profile if you'd like: <https://www.linkedin.com/in/jessfrancisarnold?trk=hp-identity-name>. Thank you.

Warm regards,

Jessica Arnold
