1	A good ta that seems very well prepared and will get better and better as she gets more confident
2	She is great! :)
3	Teaching was good, however, her English sometimes got a little bit difficult to understand. However, I can tell she still was knowledgeable about the subject.
4	Kamila's teaching is really helpful and patient, positive and passionate.
5	Gave great feedback; knew what she was talking about; very open to helping students learn. Best TA that I've ever had the pleasure of dealing with. Best of luck!
6	She was very helpful! Really put her heart into helping students!

7	Kamila takes lots of responsibility for the course. She makes very detailed notes when marking assignments, and she shows care about my learning.
8	Explanations of the course material were difficult to understand, try to explain more clearly.
9	Kamila made a significant different in the course because she prepared material in advance to make it easier for the students to grasp concepts better. She made a positive contribution to the class!
10	She was an amazing TA- she went above and beyond what she was expected to do and I could tell she was really working hard to help us succeed. SPSS is a hard program to use, but Kamila was very helpful in explaining to us how to use the program and even put youtube tutorial links on connect for us to watch. Finally I understood this thing. She also vouched for us when our class average for the midterm was unusually low and, forced our prof to look at the exam again and to take out the questions with more than one answer. She really showed interest in this class and did her best. She also was able to manage the class when our prof wasn't available and gave us an extension on our research project. I really appreciate every thing she did for us this term!
11	Kamila was a fantastic TA who was really helpful in answering questions, prompting ideas, and guiding me throughout the course. Any time I needed extra help or explanations, she was readily available during class, office hours, and through email. Overall I'm very happy with her as my TA for this course.
12	Kamila was very helpful in this course as Professor Bartolic was pregnant. She never failed to lend a helping hand and was patient even if many students needed her help. I felt like Kamila played a huge role in this course and without her, the course would not have been that smooth sailing.

1	B
2	Because of Professor's pregnancy, Kamila has to take lots of responsibilities for the course and I think she has a high load of works related to this course. I really appreciate her hard work.
3	This course is really fast paced, and there is a lot of material but she still handled everything well
4	Due to Professor Bartolic's pregnancy, Kamila had to offer more help to the students than required. Her willingness to go the extra mile has helped tremendously.
