- Excitement of never being able to see your family again
- Flexibility of being bought and sold to hundreds of clients 7 days a week
- And MUCH MUCH MORE!

So what exactly do we offer?

We will tell you that you have been offered an international modelling contract, and fly you out to a foreign country of which you will not know. We will seize your passport and all forms of identification so we are able to control you, force you into the human trafficking industry, and assign you what we will call your "agent", but is really just your pimp.

Once you've been assigned to one of our agents, they will line you up with 10 - 12 clients per day! Travel to and from locations will be provided, and all job opportunities will be mandatory and forced upon you.

You will live with other models who are subject to the same malnutrition, abuse, and poor living conditions that you are in as well, so there will be lots of opportunity to make life long friends (and by life long, we mean these will be the ladies who will be forced into street prostitution with you once you are too old to be marketed as a young girl)!

CONDITIONS

- We are not subject to liability regarding life long substance abuse used to cope with the physical and mental pain of being forced into the human trafficking industry
- We are not liable for the treatment of models by clients, and will not provide any forms of medical treatment for any injuries sustained while working
- Any health inquiries will be ignored, and medical treatment is not provided
- Access to birth control or any forms of contraception is not provided as unprotected sex is our most lucrative commodity
- If you are arrested, we will not be liable for your charges, and you will be left to fend for yourself during your interaction with the law
