

Site visit preparation

Site name: _____ Client Reference #: _____ Date: _____

Surveyor Name: _____ Client: _____

Overburden characteristics

Prior to site visit

Using the [B.C Soil Information Finder Tool](#), select your area of interest, and access the following reports, if available:

- a. The **British Columbia Soil Survey** (*Volume 6 Technical Data-Soil Profile Descriptions and Analytical Data*)
- b. The **General Soil Description page** (*from the Government of Canada's official webpage*)
- c. The **Soil Management Handbook**.

1. Using the information from reports a) and b), complete the information below for each soil occupying at least 20% of the site surface (copy as many times as necessary).
