RE: Entry Level Behavior Therapist

Dear

Please consider my application for an entry level behavior therapist at The Center for Autism and Related Disorders, Inc., as posted on LinkedIn.

I am currently in my third year studying Psychology at the University of British Columbia Okanagan. I have always had a strong passion for mental health, mental illness, and am also very passionate about working with children who have special needs. My passion and love for working with children has grown throughout my past years of working in a daycare.

In regards to my work experience, I began working in childcare in June of 2014 and have been interested in this field ever since. Throughout my experience in childcare, I have had the opportunity to work with children from the ages of 8 months to 12 years, and have been able to provide them with age appropriate daily programming. As well as working with groups of children in a daycare setting, I have also had the chance to work one-on-one with children with special needs, including children with Autism.

Currently, I am seeking more opportunities to further my experience and expand my knowledge in this field. With my background in working with groups of diverse children, accompanied by my passionate demeanor, I am confident that I can positively contribute to The Center for Autism and Related Disorders.

I have provided my resume below. If my background meets your needs, please contact me at (867)332-5050 or by email at lauradp998@gmail.com.

Sincerely,

Laura Di Pietro
