HOW WILL THE WORLD EAT IN THE FUTURE?

February 11th, 2016

12-2pm

AMS Nest Great Hall

6133 University Boulevard

sustain.ubc.ca/food

Tickets \$5 - available online

With a global population of nine billion by 2050, and climate change already taking a toll, how will the world eat in the future?

Join award winning author, activist, and academic Raj Patel, as he shares some of the best and most surprising innovations to address the future of food.
