

# Diverse Intelligences Summer Institute

Can we **recognize** intelligences beyond our species?

How do culture, technology, language, and interaction  
**shape** human intelligences?

Is it possible to **program** true artificial intelligences?

Join us  
for a new, fully funded  
summer program!

University of  
St Andrews,  
Scotland

2018

July 29 - Aug 12

Seeking  
graduate students  
and early career researchers  
for a new interdisciplinary summer  
program on **recognizing, shaping,** and  
**programming** intelligences.

Application review starts Feb 1
