

Looking for a way to make an impact?

Climate Action Mentors Program

Mission

Combine your science background with social action techniques to empower youth to tackle climate change issues

What

Perform a workshop (1-2 hours) for a school in Vancouver or a surrounding area combining hands on science and social engagement. We will pair you so you won't do this alone!

Who

Undergraduate, graduate, and post-doctoral students in science, geography or environmental studies, or anyone with lots of passion!

Training will be on March 7 or 9 from 6-7pm in FRST 1222 with free food!
