

# The Role of Artificial Intelligence in Finance.

**Natalie Cartwright**

**Finn AI | Co-Founder**

Natalie is a vocal proponent in examining the ethical implications of new emerging technology. She is an advocate for socially conscious innovation and how the intersection of humans and technology can positively impact society. Prior to founding Finn AI, Natalie worked at the Global Fund in Geneva managing a USD \$250 million health investment portfolio. Natalie received her MBA at IE Business School in Spain.

Leveraging artificial intelligence and the deepest banking domain expertise in the industry, Finn AI builds simple, easy-to-use conversational banking platforms for financial institutions so their customers can easily manage their money and improve their financial literacy.
