GLOBAL INNOVATION EXCHANGE

INNOVATION COMPETITION 2021
DATA-DRIVEN TECHNOLOGY FOR AGRICULTURE

The Global Innovation Exchange is excited to announce the Innovation Competition 2021 sponsored by Microsoft FarmBeats, focused on advancing global agriculture through data-driven technology.

THE CHALLENGE

We are seeking original, technologically inventive projects in areas such as the Internet of things, intelligent hardware, low-cost sensors, drones, robotics, computer vision/machine learning algorithms, and cloud computing to help address farming challenges anywhere across the world. You're invited to create an innovative solution that will increase farm productivity, reduce costs, protect crops, or address other farming challenges in a specific context.

INFO SESSION

Join us for a virtual info session on November 16 at 6:30 p.m., featuring Dr. Ranveer Chandra, Chief Scientist, Azure Global at Microsoft. The info session will be hosted by Dr. John Raiti, Assistant Teaching Professor at the University of Washington.

REGISTRATION

Registration is open until February 15, 2021. Visit the website below to see prizes and register.
