

## Tenure-Track Faculty Position

Open to rank of Associate/Assistant Professor

Agricultural Economics: Sustainable Macroeconomics

---

**Faculty:** Faculty of Agricultural and Environmental Sciences

**Department/School:** Department of Natural Resource Sciences

---

### Position Description

McGill University's Department of Natural Resource Sciences, Faculty of Agricultural and Environmental Sciences, invites applications for a tenure-track position in **Agricultural Economics** at the Associate or Assistant Professor level. Scale is an important element in analyzing and developing policy alternatives for sustainable development. This position is open to highly qualified agricultural and applied economists who conduct macroeconomic analysis. Preference will be given to candidates with research experience in trade, energy, and the environment. Candidates with research experience in the application of macroeconomics to the Sustainable Development Goals with particular emphases on Sustainable Agriculture, Trade, and Food Security (SDG 2), Renewable Energy from biological feedstocks (SDG 7), Green Growth- SEEA (SDG 8), Climate Change (SDG 13), and Sustainable Production and Consumption (SDG 12) would be an asset. The candidate should have applied quantitative skills in macroeconomic modelling with the ability to incorporate the environment into general equilibrium models. Applied modelling experience in General Equilibrium Modelling, Global Computable General Equilibrium Modelling, Social Accounting Matrices or E3 Modelling is essential.

McGill's Faculty of Agricultural and Environmental Sciences is located on the Macdonald Campus, 35 km from downtown Montreal. The Campus comprises 650 hectares of farm and forested lands, commercial and research animal facilities, experimental field stations, well-equipped analytical laboratories and state-of-the-art student learning facilities. McGill's Sustainability Sciences and Technologies Initiative (SSTI) and Green Chemistry and Catalysis Centre provide additional opportunities for research collaborations and outreach. Additional information concerning McGill University and its Faculty of Agricultural and Environmental Sciences can be found on their respective web sites ([www.mcgill.ca](http://www.mcgill.ca), [www.mcgill.ca/macdonald](http://www.mcgill.ca/macdonald)).

## Job Duties

The successful candidate is required to develop a strong externally-funded research program involving the mentoring and supervision of graduate and undergraduate students, teach courses at the undergraduate and graduate levels, and be involved in service to the university and scholarly communities. Collaboration with other researchers at McGill, especially within our multidisciplinary department which features research on soils, agricultural systems, microbiology, entomology, social-ecological systems, the Department of Economics, and the Bieler School of Environment, as well as other university research centers is encouraged.

## Qualifications and Education Requirements

The successful candidate must hold a PhD in Agricultural, Environmental or Natural Resource Economics, or a related discipline, and will contribute to teaching and research in the Agricultural Economics Program at McGill. Candidates should have a strong record of research, as demonstrated by peer-reviewed scholarly publications, and experience in teaching undergraduate and graduate courses. Interdisciplinary collaboration and post-doctoral research experience are considered to be assets.

---

## JOB DETAILS

Job Classification:	Tenure-track
Rank:	Associate/Assistant Professor
Job Status:	Full-time
Salary:	Commensurate with qualifications and experience
Application Deadline:	The position will remain open until filled, but all application materials must be received by March 15, 2022 to assure full consideration.

---

## **COMMITMENT TO EQUITY AND DIVERSITY**

---

McGill University is committed to equity and diversity within its community and values academic rigour and excellence. We welcome and encourage applications from racialized persons/visible minorities, women, Indigenous persons, persons with disabilities, ethnic minorities, and persons of minority sexual orientations and gender identities, as well as from all qualified candidates with the skills and knowledge to engage productively with diverse communities.

At McGill, research that reflects diverse intellectual traditions, methodologies, and modes of dissemination and translation is valued and encouraged. Candidates are invited to demonstrate their research impact both within and across academic disciplines and in other sectors, such as government, communities, or industry.

McGill further recognizes and fairly considers the impact of leaves (e.g., family care or health-related) that may contribute to career interruptions or slowdowns. Candidates are encouraged to signal any leave that affected productivity, or that may have had an effect on their career path. This information will be considered to ensure the equitable assessment of the candidate's record.

McGill implements an employment equity program and encourages members of designated equity groups to self-identify. It further seeks to ensure the equitable treatment and full inclusion of persons with disabilities by striving for the implementation of universal design principles transversally, across all facets of the University community, and through accommodation policies and procedures (<https://www.mcgill.ca/hr/benefits/disabilities>). Persons with disabilities who anticipate needing accommodations for any part of the application process may contact, in confidence, this email (<mailto:accessibilityrequest.hr@mcgill.ca>).

All qualified applicants are encouraged to apply; however, in accordance with Canadian immigration requirements, Canadians and permanent residents will be given priority.
