

Loblaw Net-Zero Food Systems Challenge

About the Challenge

The Loblaw Net-Zero Food Systems Challenge will bring together graduate students from across Canada to investigate strategic levers that will drive Canadian adoption and demand for net-zero agricultural products along the value chain, from farmers to consumers. The 10-month program is being run by Arrell Food Institute and the Ontario Agricultural College at the University of Guelph. Loblaw will provide financial support and the opportunity of real-world sector insight.

Apply By January 13, 2023

Program Benefits

- Impact Canada's food system and a carbon neutral future while broadening your resume and professional network
- Receive training and coaching from industry experts and researchers
- Gain experience developing research pieces and creating policy relevant plans
- Develop peer networks and work with students in other fields and institutions

An inspiring week of collaborative learning in the classroom and in the field! The organizers were incredible, the lessons were eye opening, the concepts were stirring, and the collaborations were invaluable. I will use these lessons in my research
