# Forests People & Food

Why trees are  
good for you

## **Dr TERRY SUNDERLAND**

Principal Scientist, CIFOR (Centre for International Forestry Research).

Join world renowned scientist Dr Sunderland as he discusses how forests, in addition to supplying trees and clean air, also provide millions of people with food, medicine and energy. In this engaging lecture, Terry will address why forests must factor into national policies, and shares some of his experiences as a forestry researcher for 25 years.

Thursday, March 10th

4:30 – 5:00pm Catered reception in the atrium

5:00 – 7:00pm Public lecture with Q&A

Forest Sciences Centre, Room 1005
