Dear Jonathan,

I am currently applying for a new position as a Software Engineer and I am hoping that you will be able to provide a reference on my behalf. As you were my mentor while I worked at SAP, I believe you have a good understanding of who I am as a developer. Through our weekly meetings we have discussed a wide range of topics such as software development, team communication, career goals, education, technical communication and team fit. I really appreciate your expertise when it comes to communication and product management and so I thought you are the perfect person to act as a reference.

I have enclosed an updated copy of my resume. Please let me know if there is any additional information that you would need.

Thank you very much for taking the time to consider my request.

Sincerely

Marissa Tamaki
