

Poetry research project

After spring break, you will complete your poetry research project based on the poet of your choice.

As part of the research project, you will write one paragraph about the poet of your choice.

The full details and requirements of the poetry project will be announced AFTER spring break.

For spring break, I would like you to complete the following:

- Find 4-6 online or print sources with information about your poet of choice. **Wikipedia does NOT count!**
- Paste everything on to a Word document.
- SAVE A COPY on your computer and print it out.
- *You will hand this in on Monday, March 27—the day we return from spring break.*

You will also share one of your sources and post it on this Padlet. Please include your initials. Posts will be approved before they appear online. This is for you to share good sources and help each other out. 😊
