

Sample discussion questions you can ask your peers during your presentation:

- For example: if the focus of the poet paragraph is on their family history, you might ask:
 - How do you think their home life affected the poems they wrote?
- Have you encountered any of their works before? If so, what were they, and in what context?
- In what ways might the poem's method of expressing identity be relevant to us? The society at large?

Questions will also arise naturally based on your presentation.

Have 5 questions prepared; you will likely not be asking all of them, though.
